

Management Zone Export to DM Program

Available to customers who are in the MAPS DM program

In order to create a Management Zone report on the Data Management website you first need to send the data over from SOILMAP.

There are two ways to access your Management Zone.

#1. You can access it by going to farm - create - management zones.

Press the DM Flag button

The screenshot displays the 'Management Zone' window in SOILMAP V6.5. On the left is a map of a field with a grid overlay, color-coded by management zones. The map includes labels for 'State Highway 7', '620th St', and '180th Ave'. Below the map is a zoom slider and a 'Zones' dropdown menu with a 'Set' button. Underneath are 'Plot Blocks' buttons for 'Low', 'Normal', and 'High'. On the right side, there is a data table with the following content:

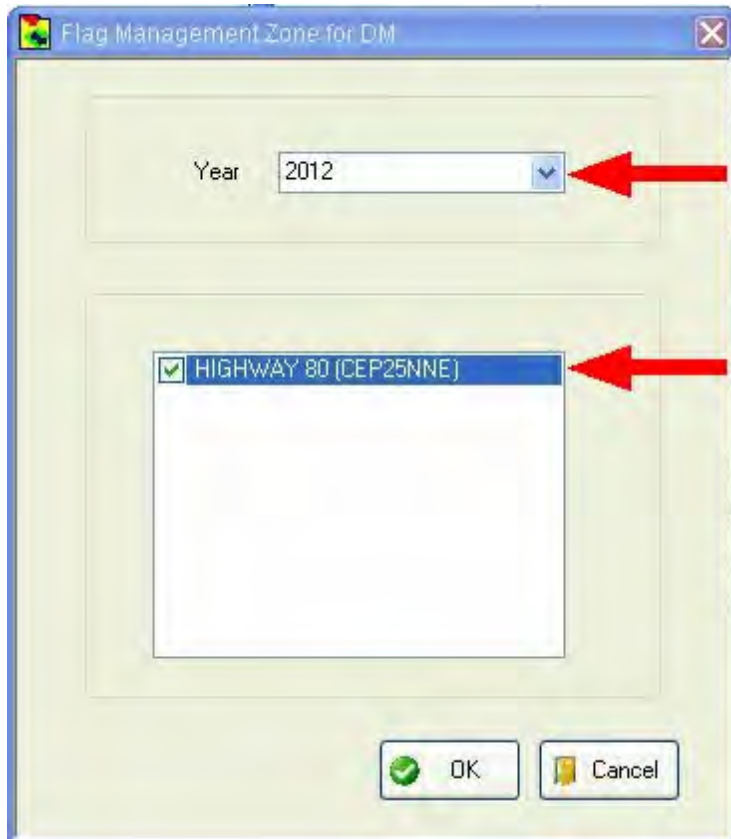

Column Name	A	B	C
Relative Yield All	-1	-1	-1
Relative Yield Corn	-1	-1	-1
Relative Yield Beans	-1	-1	-1
Corn Yield	-1	-1	-1
Soybean Yield	-1	-1	-1
Corn Rate	-1	-1	-1
Bean 1 Rate	160000	80000	0
Bean 2 Rate	0	80000	160000

Below the table is a legend for 'mzRateBn1 Levels' with color swatches and a 'DM flag' button circled in black. The legend includes the following levels:

- 180000 - 250000 (Dark Red)
- 160000 - 180000 (Red)
- 140000 - 160000 (Orange)
- 120000 - 140000 (Yellow)
- 100000 - 120000 (Light Green)
- 80000 - 100000 (Green)
- 60000 - 80000 (Dark Green)
- All Others (White)

At the bottom right, there are 'OK' and 'Cancel' buttons. The 'DM flag' button is circled in black.

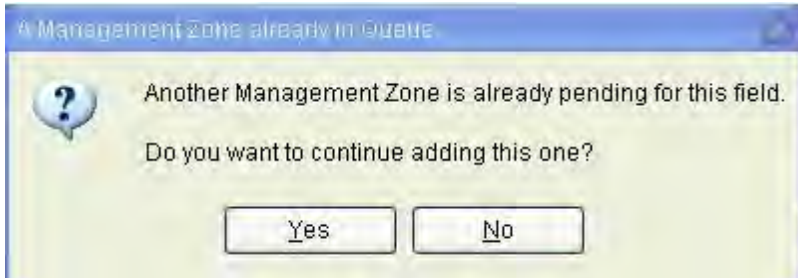

Select a year and a DM field

Press OK button

It is possible to export the MZ twice, if so this message appears:

Yes - MZ will be exported and 2 reports will be available on website

No - Cancels

#2. Load the MZ from a recommendation in the SOILMAP tree.

From the relationships tab select the details button: (The steps after that will be the exact same to the above)

Relationships | Previous Crop Adjustments | Future Crop Needs | Seed | Field Rec Map | Output | Load Sheet

Field Rec Type

- Fertilizer / Chemical from Farm Rec
- Fertilizer from Management Zone
- Seed from Management Zone
